CLOSE OF THE ENCAMPMENT.

General A. G. Weissert, of Wisconsin, Elected Commander-in-Chief—Other Officers Elected—A Review of the Most Important Work Done.

WASHINGTON, Sept. 23.—The national encampment got to work early Thursday morning and proceeded to dispose of business with unexpected rapidity. The resolution which the Ohio delegation was instructed by their department encampment to present and urge, to abolish the practice of making the commander-in-chief, senior and junior vice commander of the national encampment, and ex-department commanders life members of the national encampment, was offered by Delegate Series. The proposition was supported by half a dozen delegates but met defeat by an overwhelming majority.

When the election of commander-in-chief was taken up, General A. G. Weissert, ex-department commander of Wisconsin, was put in nomination by his state and the nomination was seconded by a number of other states. General S. A. Hearst, of Ohio, and Colonel C. P. Lincoln, of the department of the Potomac, withdrew, and General Weissert's election was made practically by acclamation.

A. G. Weissert was born at Canton, O., Aug. 17, 1844. He was winning fame at the Milwaukee bar when the war broke out. As soon as the tocsin sounded he enlisted in the Eighth Wisconsin infantry, the "live eagle" regiment of history, and shared its fortunes till the battle of Nashville. There he was grievously wounded, receiving a bullet just over the knee which he still carries. Convalescing sufficiently to rejoin his regiment, he did so on crutches. After four years gallant services he was brevetted captain from the date of the battle of Lake Chicot, Arkansas, June 6, 1864, for meritorious service fight and at the battle of Nashville, on the 15th December following and for extraordinary bravery throughout the Red river expedition. He refused the tender of a West Point cadetship by reason of his wound.

He joined the Grand Army of the Republic at Madison, Wis., in 1866 and has filled creditably every position from comrade and officer of the day up to department commander. He is now a member of E. B. Wolcott post of Milwaukee.

The following were the additional officers elected:

Senior vice commander—R. H. Warfield, of San Francisco.

Junior vice commander—Ayres, of Delaware.

Surgeon general—Dr. W. C. Weyl, of Danbury, Conn.

Chaplain-in-chief—Rev. Delamar R. Lowell, of Kansas.

The afternoon session began promptly at 3 o'clock, and under General Palmer's skillful management business was proceeded with to a conclusion and final adjournment of the twenty-sixth national encampment of the G. A. R., at 6:10 p. m.

The committee on seniority of departments was discharged from further consideration of the matter at its own request and the subject referred to a new committee consisting of Comrades Beatch of Pennsylvania, Dowling of Ohio, and Freeman of New York for report at the next encampment.

A committee was appointed consisting of Comrades Tanner of New York, Duffield of Michigan, and Kountsee of Ohio, to prepare suitable resolutions upon the death of General H. W. Barnum, of New York, which, together with a portrait of the deceased, are to be inserted in the official proceedings of this department. Comrade Beatch is chairman of a committee appointed to perform a similar service for the late Adjutant General McClelland, of Pennsylvania.

Comrade Cramer, of Maryland, representing a committee of the G. A. R., in behalf of the members of the organization, presented to ex-Commander-in-chief Alger an immense silver cup, very handsomely engraved, which was accepted by General Alger in an appropriate speech.

The committee appointed to have charge of the erection of a national memorial hall at Decatur, Ill., reported receipts amounting to \$4,882.

Among the resolutions adopted were the following: Asking congress to pass a law giving the same right of precedent in appointments to all honorably discharged soldiers that is now given by law to soldiers discharged for disability; recommending that the edition of the official records of the rebellion published by congress be increased from 11,000 to 50,000 copies; commending the order of Commander-in-chief Palmer forbidding any G. A. R. post to march under the Confederate flag; authorizing the commander-in-chief to issue a circular commending the Veterans' Protective association bureau of information in connection with the world's fair, in case he shall find it a worthy institution; declaring it to be inexpedient for the national encampment G. A. R., to express an opinion upon the subject of opening the world's fair on Sunday, it being a subject upon which the members are divided; favoring the establishment of a soldiers' home in the marine hospital building at New Orleans; requesting that the census of veterans of the war and their postoffices addresses be published immediately; asking congress to provide for the erection of a monument to the private soldiers of the army, asking the secretary of war to provide a flagstaff at Fort Sumter from which the national flag shall

float the same as at all government posts; advising the council of administration to call the meeting of the next annual encampment not later than the first week in September, 1893. Expressing the thanks of the encampment to the Old Guard of Washington, who served as guard during the sessions of the encampment; returning the thanks of the encampment to the citizens of Washington for the generous hospitality of the reception given to the veterans.

A resolution of thanks to Commander-in-chief Palmer for the faithful and intelligent discharge of his duties was offered by General W. H. Gibson, of Ohio, and adopted by a rising vote, followed by three cheers.

A proposition to accept a conveyance to the encampment of the Andersonville prison grounds, now owned by the Georgia department G. A. R., was referred to the incoming administration.

This having exhausted the business of the encampment, the installation of officers-elect for the ensuing year took place.

After the new commander-in-chief had been installed, he was asked if he could name his personal staff for the year. He answered that at present he was prepared to name but one—E. B. Gray, of Milwaukee, to be adjutant general. Comrade Gray then came forward and was inducted into office.

Comrade Gray was adjutant general to commander-in-chief Fairchild and is now adjutant general of the department of Wisconsin.

The new commander-in-chief then assumed the gavel, declared the twenty-sixth national encampment adjourned sine die.

CLOSING RECEPTIONS.

A Brilliant Affair in the Pension Bureau Building.

WASHINGTON, Sept. 23.—The series of entertainments provided for the visitors to Washington during Grand Army week reached a climax last night in the reception tendered by the citizens' committee to the members of the national encampment in the pension bureau building. The affair reached the dimensions and dignity in a special sense of an inaugural ball.

The walls of the court were decorated with much taste, still the effect was agreeably striking. Altogether the reception was limited to the members of the national encampment and the ladies accompanying them. The court was filled by a crowd of 4,000 or 5,000 people, including people prominent in official and social life at the capital. The committee in charge of the reception had provided an elaborate program for the evening, including music by the Marine band and choral society. It closed with the recitation of "The Star Spangled Banner," by Mr. Charles H. Hanford. The effect was electrical, and a thrill of deepest emotion swept through the mass of humanity.

District Commissioner Douglass then introduced Vice President Morton after expressing regret for the enforced absence of President Harrison. Mr. Morton was received with most generous applause, and delivered a neat and appropriate speech, which was responded to by General Palmer. These two were the only speeches on the program, but General Burdett called out ex-President Hayes, Postmaster General Wanamaker and Secretary of State Foster, all of whom spoke briefly. The entertainment closed with a promenade concert by the Marine band.

A reception was given by Miss Clara Barton at the headquarters of the Red Cross, in honor of the survivors of the war, and to the various organizations of patriotic women. Secretaries Noble and Rusk were present.

Ex-President Hayes called at the White House yesterday and President Harrison who is denying visitors during the illness of Mrs. Harrison, made an exception in favor of his predecessor and received him. General Hayes spent a short time with the president.

Women's Relief Corps.

WASHINGTON, Sept. 23.—The session of the Women's Relief Corps was called to order yesterday by Mrs. Susie Pike Sanders, the national president.

Miss Clara Barton welcomed the convention to the place prepared by the citizens' committee. A vote of thanks was given Miss Barton for her excellent service during the last year.

A committee, consisting of Past National Junior Vice Commander Edgar Allen and Past Department Commander of Massachusetts Evans, extended to the convention the greeting of the twenty-sixth national encampment and its appreciation of the work of the auxiliary corps.

The national president presented each comrade with a badge of the order, a red and white rose, with all the significance to be gained by them, a bouquet of flowers of the national color of the Woman's Relief corps. Mother Bickerdike was introduced amid great applause. Her remarks were practical and full of patriotism.

The chairman of the committee on courtesies, Kate B. Sherwood, reported greeting sent to President and Mrs. Harrison, Mrs. General Grant, Past National Commander G. A. R. Paul Vanderwort and others.

At a lull in the proceedings Mrs. Florence G. Miller, of Illinois, presented the national president with a silver service in behalf of the national aides, a few friends in Illinois and other states. The surface is engraved "Sue, 1892." The national president expressed her thanks for the kind remembrance.

During the session Mrs. Palmer, wife of the commander-in-chief of the grand army, expressed the appreciation and kindly feeling of her husband towards the order and his regrets at being unable to attend the convention.

Calls Mitchell a Bluffer.

NEW YORK, Sept. 23.—James Corbett, in speaking of Charley Mitchell, characterized him as a bluffer and bully, and offered to post a forfeit of \$5,000 for a fight at the conclusion of his engagements, a period of a year.

HOMESTEAD MILLS.

They Are Visited by Chairman Frick.

FOUND IN A BAD CONDITION.

But One Thousand Men at Work, and but Little Being Done—Renewed Hopes for the Locked-Out Men—More Indictments and Arrests Made at Pittsburgh.

HOMESTEAD, Pa., Sept. 22.—Chairman H. C. Frick, accompanied by a colored messenger, paid an unexpected visit to the Homestead mills yesterday. They left the train at Munhall station and at once went to the mill offices. After a brief interview with Superintendent Potter the party started on a tour of inspection of the works.

This is Mr. Frick's second visit since the lockout was ordered eighty days ago.

That Mr. H. C. Frick did not find everything in a satisfactory condition in the Homestead mill is quite certain. He would not, however, make known his conclusions or have anything to say to representatives of the press about the situation of affairs behind the big fence from which newspaper men are carefully excluded, as the mill's officials refused to talk for the public information.

However, Mr. Frick found the twenty-three inch mill not running owing to its bad conditions. The big 119-inch mill is idle, owing to costly breakage of both shears and rolls. The new beam mill, as well as one of the open hearth mills, was barely in operation and doing very little. Mr. Frick also found much sickness among the non-union workmen, attributable to bad water.

A workman named Taylor, a steam-fitter, who came to the works among the first arrivals of non-union men from Philadelphia, died in the mill hospital Wednesday night with typhoid fever. There are now about thirty cases of this disease in the mill and borough, occasioned, it is thought, from defective sewerage and bad drinking water.

News of the wholesale finding of indictments by the grand jury Wednesday caused considerable consternation among the strikers, who had hoped that many of the charges would be ignored.

Desertions from the works continue until now it is stated on very good authority, that not more than 1,000 workmen remain in the mills.

Mr. Frick was accompanied on his tour of investigation by Julian Kennedy, formerly superintendent of the Carnegie plant. Mr. Kennedy is now one of the owners of the Apollo iron works and stands very high in the estimation of the Carnegie company, with which he has for some time not been connected in any manner. His presence at this time is regarded as very significant. In fact it is currently reported that Mr. Kennedy will very soon succeed Superintendent Potter, with whose conduct of the present labor troubles, rumor says, the Carnegie people are very much dissatisfied. Mr. Kennedy is also held in high regard by the former employees at Homestead, and it is believed that his engagement by the company would certainly bring about an early termination of the present difficulties.

Secretary Lovejoy Arrested.

PITTSBURG, Sept. 23.—Secretary Lovejoy, of the Carnegie Steel company, was arrested yesterday afternoon by Constable Walls on a warrant issued by Alderman King, charging Lovejoy with aggravated riot and assault and battery. Lovejoy gave bail at the alderman's office in the sum of \$2,000, with banker Thomas Mellon as surety.

The charges against Lovejoy were made by Burgess McLuckie, of Homestead. Informations on the same charges have been made against Messrs. Frick, Leishman, Curry, Potter and Childs.

Later in the day Messrs. Frick, Phipps, Leishman, Curry, Childs, Potter, McConnell, Dovey and Corry appeared at Alderman King's office, waived a hearing and gave bail in the sum of \$1,000 on each charge, or \$2,000 each for their appearance at court. Banker R. B. Mellon became bondsman for each of the accused.

It is thought the prosecution in presenting these cases to court will undertake to test the legality of the various Carnegie interests.

Homestead Soldiers Indicted.

PITTSBURG, Sept. 23.—The grand jury yesterday acted on the cases of Lieutenant Colonel J. B. Streater, Colonel A. L. Hawkins and Assistant Surgeon William Simpson Grinn, of the Tenth regiment, charged with aggravated assault and battery, in connection with the case of William L. Iams, a private in Company K, stationed at Homestead during the trouble there. True bills were found in each case, and the right of national guard officers to inflict such a punishment will now be tested in court. There is also a true bill found against Colonel Hawkins on a charge of assault and battery.

Factory Boiler Explodes.

CLAYTON, Del., Sept. 23.—The boiler in Carson's factory exploded yesterday, injuring three persons, blowing off the roof of the building and sending the boiler eight feet into the air. The injured who were brought to the Delaware hospital, this city, were Oliver Brown, of Havre de Grace, Md., unmarried; hurt internally and badly scalded; injuries fatal. Jacob Kerchley, of Harford county, Md., married; scalded and both legs and left hip broken; recovery doubtful; has three children. Levi Ransom, slightly scalded and knocked senseless; injuries not serious.

GREENUP, Ky., Sept. 23.—There was born to Mr. and Mrs. J. H. Johnson, a pound and a half girl baby. A teacup easily slips over the infant's head, resting on its shoulders.

ODD FELLOWS.

What Was Accomplished at Yesterday's Session of the Sovereign Grand Lodge.

PORTLAND, Or., Sept. 23.—One of the most important things done at Sovereign Grand Lodge of Odd Fellows yesterday was the adoption, by a vote of 120 to 25, of a resolution declaring it expedient to remove the headquarters from Columbus to Baltimore.

Another matter entitled to mention was the indefinite postponement of consideration of a resolution declaring it to be the sense of the lodge that a person otherwise qualified who is engaged in the sale of intoxicating liquors is not of such "good moral character" as contemplated by Section 2, Article 16 of the constitution, and is therefore not eligible to membership of a subordinate lodge. Discussion of this resolution occupied almost the entire afternoon session.

There was also a lively debate over a proposed amendment to the constitution reducing the minimum age of admission to the order from twenty-one to eighteen years of age. It, too, was defeated.

By instruction of the grand lodge and the grand encampment of Arkansas, the grand representatives of that state to the Sovereign Grand lodge, will present a memorial to that body in behalf of the building of the Odd Fellows' national sanitarium and home at Hot Springs, Ark., for sick and afflicted Odd Fellows and members of their families of the whole order.

The home is not intended to be an asylum for aged and infirm, but a refuge for the sick, where they will be cared for at actual cost. The general plan of the operation will be raised by vote, subscription, donation, bequests, transfers in trust and loans from different lodges and branches of the order, assessments and methods of like character; to loan all moneys so obtained until the accumulation or principal and interest of such funds shall be sufficient, and thereupon when such funds shall become adequate for the purpose to build, equip, stock, manage, control and maintain a permanent sanitarium for those entitled to support therein. The proposed home meets with the approval of Past Grand Sire Busbee and Grand Secretary Ross.

A charter was granted by the secretary of the state of Arkansas on April 22, 1892.

The next Sovereign grand lodge of the Odd Fellows will be held in Milwaukee. That city was selected at yesterday's session of the lodge by nearly a two-thirds vote. The work of the Sovereign grand lodge is rapidly drawing to a close.

TOWN DESTROYED BY FIRE.

A Small Seaport on the Northumberland Straits Burned.

ST. JOHN, N. B., Sept. 23.—Buctouch, a small seaport town on Northumberland straits, in Kent county, this province, was almost destroyed by fire yesterday. Incendiarism is suspected as the cause of the fire, which started in the rear of the kitchen of the residence of Joseph Myers, jeweler, and spread to sixty other houses, which were destroyed with incredible rapidity. The houses burned were of wood, and the town being without any fire appliances, efforts to prevent the spread of the fire proved futile. Fanned by a stiff breeze it finally burned itself out.

The former occupants of the burned houses are camped in small tents and shanties in the field adjoining the village. The main arch of the Buctouch bridge, as well as the public wharf, are destroyed. Not a store is left in the village and the half dozen hotels are all wiped out. The loss will aggregate about \$125,000. The insurance will fall far short of this amount.

Railroad Wreck in Iowa.

DAVENPORT, Ia., Sept. 23.—A west-bound passenger and mail train, on the Chicago, Rock Island and Pacific road, crashed into a heavily loaded freight train, seven miles west of here, at 1 o'clock yesterday morning, wrecking eight freight cars, the passenger locomotive, a postal car and a smoking car. Engineer Thompson, of the passenger train, escaped injury by jumping, but the fireman was caught and badly injured. No one else was injured. The freight train was pulling onto a side track and a portion of it was on the main line on the passenger train's time.

Kept His Word.

FORT WAYNE, Ind., Sept. 23.—William J. Moran, a prominent citizen, told his family Monday night that he was going to kill himself, after which he went to bed. The family paid no attention to his threat until some hours afterward, when he was found unconscious. A physician pronounced the case one of morphia poisoning. Moran died at early hour yesterday morning.

Vegetable Curiosity.

MARENGO, Ind., Sept. 23.—David R. Suddarth is exhibiting a vegetable curiosity which appears to be twelve beets bunched together with but one root. The specimen is of the blood-red variety, and altogether it weighs twenty-six pounds.

Fell from a Train.

ENGLISH, Ind., Sept. 23.—Colonel Green B. Suddarth, of this place, prominent in Farmers' Mutual Benefit Association circles, fell from a train at Mount Carmel, Ill., yesterday, fracturing his right thigh. He was brought home.

Thunderbolt Killed Him.

FORT WAYNE, Ind., Sept. 23.—Melvin Monday, a young farmer of Hursh, Allen county, while planting wheat yesterday evening was struck by lightning and instantly killed. He leaves a wife and child.

Tip-O-Tip Driven Out of Town.

COLUMBUS, O., Sept. 23.—Tip-O-Tip, the bogus South Sea Island prince, was arrested here last evening by detective Dickson and taken before Chief Murphy, who ordered him out of town at once.

PLAGUE DYING OUT.

No New Cases of Cholera in New York.

NO DEATHS AT QUARANTINE.

Dr. Sawtelle Reports from Sandy Hook That There is No Sickness in Camp Low Except Such as is Liable to Occur Anywhere.

NEW YORK, Sept. 23.—There were no new cases or suspected cases of cholera reported to the board of health yesterday and President Wilson seems to be of the opinion that the dreaded disease has been nipped in the bud. There are now only seven houses in the city under quarantine, but, says Dr. Wilson, even this is merely a precaution.

Dr. Sawtelle reports from Sandy Hook that there is no sickness in Camp Low except such as is liable to occur anywhere. Three of the inmates of the camp, he said, were suffering from a slight attack of diarrhoea, which might be caused by the change of temperature. He declared that the sufferers had no suspicious symptoms.

Mrs. Domiz, the cholera patient, who occupies an isolated tent, is improving rapidly.

The reports that the camp is likely to run short of provisions is denied. The storehouse is full, and when there is necessity for more supplies, they can be procured without delay.

The commandant informed the reporter of the United Press that he did not rely on the Jersey Central railroad to furnish anything except coal, and of this he had a plentiful supply.

The cabin passengers of the Scandia and Bohemia now on the New Hampshire will not be transferred to Fire Island, but will be made comfortable on the Frigate during their period of detention if the health officer's present intention is carried out. According to the outlook now there is no chance of new inhabitants for Fire Island after the Wyoming's people leave.

Dr. Byron's morning report shows all well in the lower bay, with the exception of the sick from natural causes previously reported.

The steerage passengers of the Hamburg steamer Moravia were transferred to Ellis Island yesterday. The Moravia was the first cholera-bearing ship. She arrived from Hamburg on the evening of Aug. 30.

Dr. Hamilton Ordered to Chicago.

WASHINGTON, Sept. 23.—Secretary Foster has ordered Dr. Hamilton to turn Camp Low, N. J., over to Dr. Sawtelle, and to return to his station at Chicago via Washington.

AN ITALIAN REPUBLIC.

Great Disquiet in the Quirinal—The Attitude of the Vatican.

ROME, Sept. 23.—The presence in Rome of Mgr. Ferrata and the happy auguries of the republican policy of the pope in France have raised anew the question of republican government in Italy, from the point of view of Catholic interests, and the position of the pope. The idea of a republic grows among the masses. Several conservative journals have pronounced clearly for this change. This change in sentiment has produced a sensation and a sensible disquietude at the Quirinal, and also in the great European courts.

The alteration of sentiment of Italy is due to the tendency of the king to sacrifice the country to the interest of the dynasty by doubtful alliances. Catholics consider the monarchy has contracted exorbitant engagements in order to prevent the solution of the Roman question. The Vatican nowhere discourages republican aspirations, seeing that the advent of a federal republic on the American type would give a place to Rome as a free city and patrimony of the holy see.

The Quirinal actively accuses the Vatican at the courts of Europe with lending a hand to the movement which aims at the triumph of republicanism in Europe.

The Italian government is specially concerned over what might happen when the Catholic groups will declare for the republic at the elections. In view of this combination, the Austrian and German governments recommend that the Quirinal should show less hostility to the pope and so try to counteract the movement. If the Italian government push matters to extremity the Vatican can have recourse to extraordinary measures. The situation leads to an important historic solution despite the efforts of Vienna and Berlin to moderate the action of the Quirinal and pacify the ecclesiastic party in Rome.

BOY MURDERED.

Called Out and Shot Down During a Revival Meeting.

SOMERSET, Ky., Sept. 23.—A few days ago, while revival services were being held near the Rockcastle county line, the McFarland boys, desperate characters, became enraged at a young Stavlin boy. They went to the revival services, called him out and shot him, causing wounds that will prove fatal.

The McFarland boys, three in number, have been arrested and lodged in jail, after a desperate running fight. The gang has long been a terror to this section.

FOSTORIA, O., Sept. 23.—The Crocker window glass factory commenced operations yesterday morning, after a two-months' shutdown, and fairly got started when the snappers struck on account of the company employing an extra man, thus taking \$1 per week off their salary. The gatherers and blowers also quit work in sympathy with their brethren, and in consequence the factory is at a standstill. This will probably affect the other window glass houses in the city.

WEATHER INDICATIONS.

Fair; east to south winds.

The Portsmouth Times adds its words of praise. It says Hon. Thomas H. Paynter has made an especially active and capable Congressman. The people of this district say so, too, and will return him in November.

NO MEMBER of the General Assembly has any right whatever to the pay of \$5 per day if he spends his time away from Frankfort. Some of them are never at their post of duty. The Constitution stipulates that they should render some service in return for their per diem, and members who continue to draw pay for something they never do are guilty of gross fraud.

BURLINGTON, Vt., generally goes Republican. During the recent campaign in that State Governor McKinley was sent up there to talk high tariff. He opened at Burlington, and the Republican papers said he was cheered by 15,000 people. When the returns came in from the election they showed a Democratic majority of 300 in the city. Democratic should try and keep McKinley on the stump.

A STRIKING illustration of the decadence of the Republican party in Iowa is found in the fact that only thirty delegates attended the county convention in Davenport which was held a few days ago, says the New York World. This county formerly gave a Republican majority of from 3,000 to 4,000. It now returns a Democratic majority even larger, and every man who permits his name to be placed on the Republican ticket knows in advance that he has no chance.

GENERAL JAMES H. BAKER, ex-Secretary of State of Minnesota, and a life long Republican, is running on the Democratic ticket in Blue Earth county for the Legislature. Four years ago Baker was the fiercest Republican advocate on the stump in the Northwest, and his change of heart is due to the Republican course on the tariff. The Minnesota Republicans tried to hold their rank and file in line by nominating Knute Nelson, "a rank free trader" for Governor, but when such men as Baker leaves the G. O. P. the situation must be critical.

DISTRICT ASSEMBLY No. 220, Knights of Labor, of Brooklyn, denounce Commissioner Peck's figures, claiming wages have been increased, as false. These workmen speak from personal knowledge. They say his figures are disproved by "the vast body of the unemployed and underpaid," and ask the Governor to dismiss Peck from office "for prostituting and betraying the confidence reposed in him." Resolutions of this tenor were unanimously adopted. If the workingmen are better paid than they were, they do not seem to have found it out.

It is said the grand jury at Albany, N. Y., has indicted Commissioner of Labor Peck for destroying public documents—those wonderful reports from the philanthropic manufacturers who raised the wages of their employees, but who don't want their names known. The Janitor of the building in which Peck rooms swears Peck paid him \$3 to burn up a lot of papers, and some of the charred reports found in the furnace used are in evidence. Republicans characterize the prosecution of this man as "vindictive pursuit," but the Democrats simply want to see justice done.

MR. PECK AND HIS FIGURES.

The Commercial Gazette remarked the other day that "Commissioner Peck does not care to have Mugwump free-traders nosing among individual reports, to obtain which he gave his personal pledge not to disclose names. But he understands the bluff that has been made, and means that the bluffers shall have the proofs of the correctness of his report until they are sick of them."

Indeed! The Commissioner doesn't say so. In an interview telegraphed from New York and appearing in the same issue of the C. G. containing the above editorial, Mr. Peck says: "I wrote personal letters to thousands of manufacturers who had refused to send figures for my report asked for in my circular, and on my promise to keep their names secret they intrusted me with the facts. I will not break my plighted word, no matter what the consequences. I will go to jail first."

Isn't it strange that these philanthropic manufacturers who have increased the wages of their employees want their names kept secret? The simple fact of the matter is, that their actions and Mr. Peck's actions all indicate that there has been some crooked work. The Democrats of New York believe there has been, and they intend to have the reports Mr. Peck is trying to keep concealed, or know why. The charge is made that he has destroyed the figures, and his statement that he will go to jail rather than produce them indicates that they have gone up in smoke. Turn on the light.

THE Public Ledger says: "It now turns out that H. C. Frick, the famous manager of the Carnegie Steel Works is a Democrat." The P. L. is hard up for campaign material. Like a good many other state ments recently made by our contemporary, the above is not true. The BULLETIN saw a letter only a few days ago from the editor of a Pittsburgh paper which stated that Mr. Frick is not a Democrat now and, if we remember rightly, it added that he never had been one.

The Greatest of Trotting Meetings.

In this issue appears the advertisement calling attention to Kentucky's great trotting meeting at Lexington, October 5 to 14. The programmes are ready and will be mailed to those who apply, as will the full list of entries as soon as published. The association has offered \$50,000 for the races, and secured the best horses in the whole country; yet it has generously set aside the gate receipts of the first, second and third days for the two hospitals and the Orphan Asylum, known as the Charity Organization in Lexington.

The programme is before us, and it is an attractive one, full of variety and excellent in arrangement. Horsemen pronounce it the best ever issued and predict that the Stallion Representative stake, (\$5,000), Saturday, October 8; the Transylvania stake, (\$5,000), Monday, October 10; the free-for-all purse, (\$2,000), Wednesday, October 12, and the \$5,000 special stake Friday, October 14, will prove the four grandest contests ever witnessed.

The great event, however, of the meeting is to be the Transylvania, in which twenty horses, all able to trot in 2:16 or better, are eligible to start. Amongst them are Evangeline, 2:11½; Ryland T., 2:12½; Little Albert, 2:12½; Ponce de Leon, 2:13; Paragon, 2:13½; New York Central, 2:13½; St. Vincent, 2:13½; Anderson's Nightingale, 2:13½; Kremlin, 2:13½; Hamlin's Nightingale, 2:14½; Hazel Wilkes, 2:14½; Mattie H., 2:14½; and Belle Vara, 2:15. There are seven more, but the above show the quality of the horses in the race. Such a field has never faced a starter, and this will be America's greatest race. Write to Ed. A. Tipton, Secretary, Lexington, Ky., and get a programme, also a list of entries.

The Next Assessment.

State Auditor Norman has issued a circular to County Clerks and Assessors in regard to the next assessment. The Stevenson bill, which became a law September 14, upon approval of the Governor, is the act under which this fall's assessment must be taken. The date for beginning the assessment has been postponed to November 15, as of which date assessment is to be made instead of as September 15, as heretofore. The Assessor has until February 15 to complete his labors. The Board of Supervisors meets the first Monday in March. The schedule has undergone some changes, and is intended to catch all property not exempted by the new Constitution.

A list of all transfers is still required, and is to be made for the year preceding November 15.

All the required blanks are being prepared by the Public Printer, and will be sent forward at the earliest possible moment.

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative Syrup of Figs, under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

THE management of the Germantown Fair will enforce the strictest order—no intoxicating drinks will be sold on the grounds, no gaming allowed. They will give a first-class moral exhibition; and in view thereof they earnestly solicit the presence and support of all good people.

MR. C. T. ANDERSON's sorrel mare Elma G. by Enterprise won the three-minute trot at Mt. Olivet yesterday in straight heats. Best time, 2:40.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Power & Reynolds,

THEY NAME THEIR TICKET.

Republicans Nominate McCartney for Congress and Holt for Appellate Judge.

The Republicans of the Ninth Congressional and First Appellate districts met at Ashland yesterday to select nominees to be voted for at the approaching election. The meetings were rather slimly attended, there being about seventy-five delegates present. Those present from Mason County were Postmaster Davis, Messrs. W. H. Cox, D. P. Ort, J. D. Dye, Pat Sammons, W. C. Shackelford, H. C. Sharp, Captain Hutchins, B. F. Clift, A. M. J. Cochran, C. E. Smith and Squire Dye.

The Appellate convention was held first, and a permanent organization was effected by the election of John P. McCartney, of Fleming, for Chairman, and John C. Wood, of Mt. Sterling, for Secretary. After adopting about the usual resolutions, Judge Sam Pugh placed Hon. W. H. Holt in nomination for Appellate Judge. There being no other nomination, Judge Holt was unanimously declared the candidate.

The Judge was actually present at this political convention, and was introduced to the house and made a speech accepting the honor, although he announced when he started out in the campaign that he wouldn't accept a nomination for Appellate Judge from any political party.

The Congressional convention was organized by the election of Postmaster Davis of this city as Chairman and Reuben Gudgell, of Bath, for Secretary.

Nominations were then called for. Wm. Poage, of Boyd, presented the name of R. D. Davis, of Ashland.

J. D. Jones presented the name of Dr. J. M. Logan, of Carter.

A delegate from Harrison County nominated John P. McCartney. This nomination was seconded by Fleming County.

A call of counties was ordered, previous to which Mr. Davis withdrew his name. When Rowan County was reached Dr. Logan was withdrawn, and a motion was made to make the nomination of John P. McCartney unanimous. This was adopted and the convention adjourned.

Purely Personal.

Miss Anna Cluney has returned to her home at Louisville, after a visit to her parents.

Mr. Edward Newell, reporter for R. G. Dun & Co.'s Mercantile Agency, was in town yesterday.

Dr. Frazee came in from Frankfort yesterday, the House having adjourned until next Monday.

Miss Lucy Scott, a popular young lady of Portsmouth, is the guest of her friend, Miss Sallie Shipman, of this city.

Miss Maggie B. Dougherty left this morning for Wheeling, W. Va., on an extended visit to her sister, Mrs. Kelly.

Miss Hattie Coburn, of Salem, W. Va., and Mr. B. H. Davis, of Clarksburg, W. Va., are guests of Captain J. Hamilton and family.

Mr. Wm. E. Seaman, of Udall, Kansas, and his niece Mrs. I. M. Lane, of Maysville, were here the first of the week. Mr. S. is a veteran of the late war, and was en route to the re-union at Washington, but when the question of a possible detention in quarantine confronted him he concluded to spend his allotted vacation among friends and relatives in this and Mason counties.—Flemingsburg Times-Democrat.

THAT DEBATE.

What the Augusta Vindicator Says of the Approaching Discussion at That Place.

Says the Augusta Vindicator: "Some time since Elder C. S. Lucas, the talented pastor of the Maysville Christian Church, assisted in a protracted meeting at the church of his denomination in this city. The superior ability of the reverend gentlemen brought large congregations out to hear him, among which, at one time, was Rev. F. P. Ramsey, the scholarly pastor of the Presbyterian Church of Augusta. In this particular discourse Elder Lucas made some allusion to the much mooted question of baptism, leading Rev. Ramsey to assail the correctness of his position. The matter was warmly discussed at the time and after the close of the meeting a series of correspondence ensued, terminating in a challenge from Rev. Ramsey to meet the gentleman in open debate. Elder Lucas, ever at home in upholding the doctrinal teachings of his church, accepted the learned gentleman's proposition, and after considerable wrangling the terms upon which the discussion was to be conducted were arranged and in a few days the war of words, good humoredly though, we trust, will begin. The propositions, three in number, as agreed upon, are as follows:

1. Dipping of the person into the water is not necessary to baptism; but baptism is rightly administered by pouring or sprinkling water upon the person. Rev. Ramsey affirms.
2. Not only those who do actually profess faith in and obedience unto Christ, but also the infants of one or both believing parents are to be baptized. Rev. Ramsey affirms.
3. Faith, repentance and baptism are the equally necessary Gospel conditions of remission. Elder Lucas affirms.

"The morning discussion will open at 10 o'clock a. m., and continue until 12 o'clock m. That of the afternoon from 2 o'clock till 4 p. m.

"As the debate is between the disputants as individuals, neither of the churches will make provisions for entertaining visitors, as is customary when the local churches are parties to a debate."

Legislative Notes.

The session of the House yesterday was a very short one, and an adjournment was voted until next Monday.

The Senate had a quorum yesterday, twenty-three members being present.

The old bill classifying the cities and towns was first taken up and after some little debate it was passed without amendment.

The Fiscal Court bill was re-considered on motion of Senator Goebel, and he had the bill so amended that the present Fiscal Commissioners will be retained in Kenton County, and the present law in regard to the election is also retained. The bill after thus being properly amended, it being in line with a constitutional provision, was passed by a unanimous vote.

The Stewart resolution to re-enact the emergency clause contained in the Election bill came up at 11 o'clock as a special order, and was defeated by a vote of 21 to 5. The Senate, therefore, stands by the Election bill and holds it to be legal and in operation.

DR. WILLIAM TRISLER, who mysteriously disappeared from Decatur, Brown County, O., about two months ago, has at last been located. He is at Tolu, Daviess County, Ky., where he went when he left his home. He wrote to his brother, Professor John Trisler, Superintendent of Schools at Hartwell, O., giving a full explanation of his conduct. Dr. Trisler went to Kentucky, where his father once resided, to seek a new location. He says he wrote to his wife twice, but the first letter miscarried, and the second did not reach her, because she had left her home. After his arrival in Kentucky he was taken seriously ill. He will return to his home as soon as he is able to travel.

It will not hurt any one to try this, if cholera comes this way. An exchange says sulphur is the surest preventive of the disease. Put half a teaspoonful of milk of sulphur into each of your stockings or socks, and go about your business. Never go out with an empty stomach. Eat no fresh bread or sour food. This is said to be not only a preventive of cholera, but of any other epidemic disease, and while the epidemic prevailed in New Orleans not one among the thousands who were exposed to it, and who used this preventive, was ever attacked, it is claimed.

An engineering corps is surveying a route for the proposed extension of the Cincinnati, Georgetown and Portsmouth Railroad from Georgetown to West Union. When the survey is completed a proposition will be made to the people of West Union and other towns along the route, and if accepted work will be commenced at once.

CAUSE OF THE WRECK.

It Was a Frightful Blunder of the Freight Crew.

PITTSBURG, Sept. 23.—A. B. Starr, of the Pittsburgh division of the Fort Wayne road, returned home yesterday from the wreck which occurred near Shreve, O., at an early hour Wednesday morning, and at once commenced an investigation into the causes leading to the disaster. When seen yesterday evening Mr. Starr said:

"The fault lies with the freight crew, but to answer the question, how did they come to make such a frightful blunder, is one of those things that can not be satisfactorily answered. The conductors and engineers of the passenger and of both sections of the freight are old and trusted men. I emphatically deny the report that they were drunk, and I do not think the conclusion that some have arrived at that they were asleep is a reasonable one. Why they did it they don't know, nor do I. All any one knows is that a blunder was made and at a fearful cost. The men were not overworked, having just started out after a twenty-four hour rest. Twelve people were killed and no more. Of that I am positive, after a most searching investigation."

The financial loss by the wreck can not be estimated. It is reported that in the mail burned there was about \$30,000. This is only what was in registered packages, since what was in letters not registered cannot be known. The express matter was all burned except thirty-six silver bricks worth about \$75,000. These were taken out of the fire yesterday afternoon. Probably fifty or sixty pieces of baggage were destroyed, but what their value was the company does not know. They have no list here, as the only list made was kept by the baggage agent and it was burned.

HEAD MASHED.

A Cincinnati Workman Crushed Between Belt and Pulley.

CINCINNATI, Sept. 23.—A terrible fatality took place at Graveson & Company's freestone works at 130 Hunt street about 11 o'clock Thursday morning. Edward L. Bohn, engineer at the works, was engaged at cleaning one of the big pulleys over which runs an eight-inch belt.

He was leaning over his work and in some manner his head became caught between the swiftly revolving wheel and the belt. Quick as a flash his body was whirled around a pulley and the skull fractured. He was instantly killed, his lifeless body falling in a heap in the pit below the shafting.

The belt, which is made of strong leather, snapped in two, so great was the strain.

He was twenty-seven years old, single, and lived with his sister at Liberty and Vine streets.

Run Down by a Train.

COLUMBUS, O., Sept. 23.—The morning vestibuled express on the Big Four that reaches Cincinnati at noon struck a market wagon at the Woodward avenue crossing in the suburbs of this city yesterday. Frank Walters and his wife, farmers living near Westerville, were in the wagon. The vehicle was demolished and Walters instantly killed. Mrs. Walters was so badly injured that she died an hour later at the Protestant hospital. They were about fifty years old.

Destructive Typhoon.

SAN FRANCISCO, Sept. 23.—By the steamer Belgic, which arrived from Hong Kong and Yokohama yesterday, particulars were received of a destructive typhoon that swept over Riukiu Island. Nearly 5,000 buildings were either destroyed or damaged. Sixty junks were wrecked and a large number of sailors, who are missing, are supposed to have been drowned. About one-third of the crops were rendered useless.

Attempted Murder and Suicide.

SANDUSKY, O., Sept. 23.—John McKay, of Stratford, Canada, employe of the Sandusky and Columbus short line, in love with Sadie Langdon, an inmate of a house of ill-fame here, called upon the woman and told her he had come to kill her and then commit suicide. He thereupon drew a revolver and fired three shots at her, none of which took effect, and then fired two bullets into his head, inflicting fatal wounds.

Fire Sweeping Farms.

MILLER, S. D., Sept. 23.—A large section northwest of the town was swept by fire Wednesday night and hundreds of tons of hay burned. Unverified reports are to the effect that several farmers were completely burned out. Little threshing had been done in the path of the fire, and considerable grain must have been destroyed. The fire started from a railroad engine.

Farmers Go to Law.

DELAWARE, O., Sept. 23.—In November, 1890, Merrick Jones bought of Charles Shaw 115 sheep to put on his farm in Clinton county. Jones now sues Shaw for \$1,750 damages, alleging that the sheep were afflicted with scab, which killed those sheep and others of his flock and made his pasture unfit for use.

Deaths from Lightning.

GRANVILLE, O., Sept. 23.—During a storm Marion Newton, in a cornfield near Hollandsburg with two sons, was instantly killed by lightning. Both sons were stunned, one fatally. They were struck when taking shelter under a hickory tree.

While Handling a Revolver.

BRILLIANT, O., Sept. 23.—Wednesday night at 8 o'clock, Richard Boyle, sixty-four, 'squire of the town, was shot and instantly killed by William Campbell, aged thirteen. Campbell was handling a revolver in Boyle's store.

STAR TIME AND SUN TIME.

The Way Astronomers Find Out from the Stars When It Is Noon.

The time for sending out the noon signal from Washington is the instant the sun crosses the seventy-fifth meridian. This, however, is not the sun which gives us light and heat, but an invisible, imaginary one; because, for certain reasons, the true sun does not cross the meridian at the same moment every day, but during one part of the year he gets over it a little more ahead of time each day, and during the other part he is correspondingly behind time; and so this fictitious sun is used, because its apparent path around the earth brings it exactly over the same line at the same moment every day. Now at just what instant this sun crosses the meridian is determined by means of the stars, for time at the observatory is not reckoned by the sun but by the stars.

Every clear night an astronomer at the observatory looks through a large telescope for certain stars which he knows must cross a certain line at certain times, and by the use of an electrical machine he makes a record of the time each star passes, as shown by a clock which keeps sidereal or star time. He then consults a printed table, which shows him at just what time each star must have passed, and by as much as this time differs from that recorded by the clock the latter is wrong, and in that way the sidereal clock is regulated. This star time is then reduced to sun time, which requires some calculation, as there is a difference between the two of about four minutes each day.

These two clocks—the one keeping star time and the other sun time—are of very fine quality, and are as near perfection as possible. Although they cannot help being affected by changes of temperature and different conditions of the atmosphere, they very rarely are more than a fractional part of a second out of the way. No attempt is ever made to correct such errors, but they are carefully noted and allowed for in making calculations.

For the purpose of distributing time a third clock, known as a transmitter, is used. This is set to keep time by the seventy-fifth meridian and is regulated by the standard clock before mentioned. It is in all respects similar to the other clocks, except that it has attached to it an ingenious device by which an electric circuit may be alternately opened and closed with each beat of the pendulum. —Clifford Howard in Ladies' Home Journal.

A Curious Cave.

The cave temple of Karli, India, is rightly considered one of the greatest wonders of the world. This gigantic recess in the mountain ledge has been chiseled by human hands from porphyry as hard as the hardest flint. The nave is 124 feet long, 45 feet broad and 46 feet from floor to ceiling. Before the entrance to the temple stands a monster stone elephant, upon whose back is seated a colossal goddess, all hewed from one solid block of stone. Like the temple walls and the outside ornaments, every article of adorning sculpture on the inside is hewed from the native rock.

There are aisles on each side separated from the nave by octagonal pillars of stone. The capital of each pillar is crowned with two kneeling elephants, on whose backs are seated two figures, representing the divinities to whom the temple is dedicated. These figures are perfect and of beautiful features, as indeed are all the representations of deities and divinities in this peculiar temple.

The repulsiveness so characteristic of modern Hindoo and Chinese pagodas is here wholly wanting. Each figure is true to life, or rather to art, there being no mythical half horse, half man or beast birds depicted in this underground wonder of Karli. This wondrous underground pagoda or cave temple has been a standing puzzle for the learned archaeologists of both Europe and Asia for the last 2,500 years, and is as much of an enigma today as it was in the time of Confucius.—Philadelphia Press.

A Bibliophile Indeed.

A lady left some very precious first editions of a book in three volumes in a hansom while she went into a shop—a risky thing in itself to do. When she came out of the shop she couldn't find the hansom, which had been made to move on by a policeman, and in despair took another, and just saved the train which she had to catch at Charing Cross. After waiting for an hour and a half the cabman thought there was something queer going on and endeavored to find his fare, without success of course. Then he looked inside the cab, saw the books and some parcels, and conveyed them all to Scotland Yard. And here comes the pith of the story. The lady applied the following day for her precious books and got them. It was suggested that she should pay a certain quite adequate sum as recompense to the cabman. But the lady was indignant. That sum, she averred, did not in any degree represent the percentage due on the enormous value of the tomes. They were worth something stupendous. She mentioned what Quaritch valued them at. And quite cheerfully she paid a sum that made a comfortable nest egg for the cabman. She also made the Scotland Yard official understand something about books that he hadn't a notion of before.—London Vanity Fair.

Grandpa's Big Effort.

"I suppose you're going to Dr. Mason's funeral, grandpa?" "Oh," snarled the infirm old man, "don't talk to me about other people's funerals. It's as much as I shall be able to do to get to my own."—Exchange.
